Farmington Hills, MI
October 2018-Present

- Direct assessment and treatment intervention for incoming and current clients
- Provide weekly direct observation and supervision of clients and behavior technicians
- Conduct behavioral assessments and implementation of plans to increase adaptive skills
- Collaborate and train with parents and caregivers on current intervention strategies and client progress

Autism Home Support Services

Board Certified Behavior Analyst

Northville, MI
March 2016-September 2018

- Complete direct assessment of and writing program goals corresponding to client skill area deficits
- Lead monthly team meetings with client's care team, including direct line therapists and parents, to review client's progress and updates
- Review graphs for behavior and program targets to make data-based decisions and implement principles of applied behavior analysis for effective behavior change
- Conduct monthly parent training session with client's parents to teach and review the fundamentals of Applied Behavior Analysis and implementing their child's goals outside of ABA therapy sessions

Autism Home Support Services

Program Lead

Ann Arbor, MI
December 2014-March 2016

- Delivered on-on-one ABA therapy to several clients with autism (ages 2-12) in the home environment
- Provided on the job training and feedback for new behavior therapists on implementing ABA instructional methods and programs
- Organized team meeting notes to present data graphs and documented important updates to the client's treatment program

Autism Collaborative Center (Eastern Michigan University)

Ypsilanti, MI

Lead Behavior Technician

December 2013-December 2014

- Assist BCBA with client case management and discuss ABA principles during supervision
- Provide one-on-one intensive ABA therapy for individuals with autism (ages 2 to 6) in a clinical setting
- Observe and record daily data on skill acquisition and behavior of clients
- Facilitate structured play drills to teach age-appropriate social skills and activities
- Organize and assist with daily classroom routines, including circle time, work, and free time

Judson Center Autism Connections

Royal Oak, MI

Behavior Tutor, Case Manager

May 2013- December 2013

- Provided one-on-one ABA therapy to individuals with autism (ages 2 to 16) in a clinical setting
- Responsible for managing and maintaining clients' programs and data on a weekly basis
- Implemented behavior plans and instructional programs provided by BCBA

Teaching Experience

Novi Community Schools, Parkview Elementary

Novi, MI

Special Education Paraprofessional

November 2010-May 2013

- Collaborated with Special Education teacher and other staff to provide the most suitable learning environment for students
- Supplied one-on-one instruction to students, in the general or special education classroom, to help them acquire individual or curriculum goals
- Captured unique opportunities to teach social skills to students in the general education classroom

Novi Community Schools, Deerfield Elementary

Novi, MI

Special Education Paraprofessional

November 2010-May 2013

- Worked one-on-one and in small groups with students on curriculum-based instruction in resource room
